Requirement for Species Election

- 1) Claims 1-9 are under prosecution.

Claims 1-8 have been elected with traverse.

- 2) **Please Note:** In an effort to enhance communication with our customers and reduce processing time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Paula Hassle, Ph.D., Supervisory Patent Examiner at Paula.Hutzell@uspto.gov or 571-272-0531. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.

- 3) This application contains claims directed to more than one species of the generic invention.

Claim 2 recites a plurality of disclosed patentably distinct antigen species, which are distinct from one another in their origin, structural and antigenic make-up, immunogenic specificity and/or biologic properties: (a) Antigen characteristic of *Streptococcus pneumoniae*; (b) Antigen characteristic of nontypeable *Haemophilus influenzae*; (c) Antigen characteristic of *Moraxella catarrhalis*; and (d) Antigen characteristic of *Staphylococcus aureus*.

- 4) Applicants are required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. Any argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon allowance of a generic claim, Applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, Applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should Applicants traverse on the ground that the species are not patentably distinct, Applicants should submit evidence or identify such evidence now of record, showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C § 103(a) of the other invention.

- 5) Any inquiry concerning this communication or earlier communication(s) from the Examiner should be directed to S. Devi, Ph.D., whose telephone number is (571) 272-0854.
